### Remarks (Continued)

- 9. Water systems will be developed and expanded to meet the requirements of Park Development Program at Lahontan. This development will be in accordance with the Lahontan Reservoir General Recreation Development Plan and will progress at a rate to be determined by the Legislature. At this time, \$1.6 million is available for park development; approximately \$400,000 will be spent on water system development at this time (75-77). Total water system development will cost approximately \$1 million.
- 10. Work covered in the Lahontan Reservoir General Recreation Development Plan is expected to take 10 years to accomplish. This time, however, is entirely dependent on legislative funding and approval.
- 12. Proposed uses include park personnel residences, shop and maintenance facilities, park concessions, and general recreation uses. The principal use areas as shown in the General Recreation Development Plan are Churchill County Beach, North Shore Marina and Silver Springs Beach.

Additional planning and design information is available from the State Park System on request.
